DETAILED ACTION

This office action is in response to the Amendment of November 20, 2009 and the Terminal Disclaimer of February 5, 2010. In the November '09 amendment claims 52-55, 57-60 and 86-284 were canceled, and claims 56 and 61 were amended.

The Terminal Disclaimer filed February 5, has been reviewed and overcomes the previous rejections set forth on the grounds of obviousness-type Double Patenting.

The examiner notes that in the interview of January 6, 2010 he stated that the filing of the Supplemental Declaration and the Terminal Disclaimer would place the application in condition for allowance. However, during a final review the issue set forth in the rejection below was discovered.

Reissue Applications

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The Declaration of September 22, 2003 sets forth that the error which exists in the patent is that claim 1 included a number of unduly narrow claim limitations. A review of claim 1 shows that the narrower terms discussed in the declaration are still present in the claim. The newly presented, and now canceled, claim 86 seems to include much of the similar, less limiting claim

Art Unit: 3746

language set forth in the declaration. However, this claim was restricted out for the reasons set forth in the April 8, 2008 office action and has been canceled by the applicant in the amendment of November '09. For this reasons the declaration does not identify an error to support a reissue application.

Claims 1-26, 28-51, 56, 61-66 and 75-85 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 6,289,666 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.
